

INVITATION TO SPONSORS

The 7th
**Underwater Acoustics
Conference & Exhibition
(UACE2023)**

will be held in Kalamata, Greece
25-30 June 2023

The conference and exhibition is organized in co-operation with CCBS Greece

Dear Sir/Madam

The 7th Underwater Acoustics Conference & Exhibition (UACE2023) will be held in Kalamata, Greece during the days Sunday 25th through Friday 30th June 2023. It will be dedicated to the memory of Prof. John Papadakis co-founder of this series of conferences, who passed away last December.

The UACE series of conferences is considered as a world's leading event in underwater acoustics. The UACE2023 will comprise a prominent series of structured oral sessions organized by key persons actively engaged at the forefronts of research in underwater acoustics with invited papers given by leading international scientists. In addition, most recent research results will be presented in contributed papers forming the basis for regular oral and poster sessions.

It is a great pleasure for me, on behalf of the Organizing Committee, to invite your company to support the Conference, by becoming official sponsor of it. You may choose to become gold or silver sponsor choosing the package you prefer. Your company will receive great visibility among the conference participants and through the conference web-site

Looking very much forward to meet with you in Kalamata in June 2023.

On behalf of the Organizing Committee

Professor Michael Taroudakis
